Intellicentic™ – Platform Technologies That Provide A New Way To Look At Pharmaceutical Manufacturing.

Cleveland, Ohio – Federal Equipment Company is pleased to announce the launch of Intellicentic™ – a new way to look at pharmaceutical manufacturing. Intellicentic™ advanced platform technologies were developed in concert with top pharmaceutical manufacturing suppliers, service providers and Pfizer Incorporated’s experience and broad manufacturing knowledge base.

“Intellicentic changes the way pharmaceutical manufacturers look at their manufacturing processes by harnessing the complementary power of data models, engineering, and IT infrastructure to create a game-changing paradigm,” said *Federal Equipment’s* COO, Matt Hicks.

Intellicentic™ platform technologies transform raw data into knowledge and intelligence, which enables an organization to move from a reactive model to proactive and preventative strategies. Operations cease to be stand-alone and isolated, becoming instead integrated into the larger infrastructure and plant/enterprise strategies.

“Advanced manufacturing is the next, big step for pharmaceutical manufacturers,” says *Federal Equipment* President and CEO, Larry Kadis.

The Pfizer-led collaboration currently includes:

- Pfizer, Inc. (www.pfizer.com)
- Stottler Henke Associates, Inc. (www.StottlerHenke.com)
- Perceptive Engineering Ltd (www.perceptiveapc.com)
- Middleton Research (www.middletonresearch.com)
- Kaiser Optical Systems, Inc. (www.kosi.com)
- Metrohm USA Inc. (www.metrohmusa.com)
- Federal Equipment Company (www.fedequip.com)

About Federal Equipment Company

For more than 50 years, Federal Equipment Company has been the trusted name in the process equipment industry. Federal Equipment is a top supplier of pharmaceutical, chemical, plastics, and packaging machinery, offering more than 15,000 pieces of equipment from our 600,000 square feet of warehouse space in Cleveland, Ohio. With extensive experience in specialized markets, Federal Equipment provides clients with worldwide asset disposition solutions - regardless of the size, location, or complexity of the project.

Strategic relationships with organizations such as Pfizer Inc. ensure the finest used process and packaging equipment on the market. Value, extensive experience, and exceptional service make Federal Equipment the right choice for the discerning equipment buyer.
